Source List

Database Configuration · https://learnpcr.pcrecruiter.net/site/docs/database-config/source-list/

Use this option to create a standardized list designed for tagging name records with their referring source. This table is also used for EEO Candidate Self Identification.

1. Click the **Settings** icon on the Main Toolbar
2. Click **Database Setup**
3. Click **EEOC Source**
4. Click the **Add** action icon.
5. You must enter a **Source Category** and **Source Name**; the other fields are optional. The Category and Name can be the same value (e.g. Indeed/Indeed).
6. Click **Save**
