Placement Codes

Placements · https://learnpcr.pcrecruiter.net/site/docs/placements/placement-codes-2/

Use these codes to better specify a Placement or Hire type. PCRecruiter comes with two basic options: Permanent or Contract/Temp. These allow you to better designate and then report on your type of Placements.

Adding Placement Codes

1. Click the System icon on the Main Toolbar.
2. Click Database Setup.
3. Click Placement Codes.
4. Click the Add action icon.
5. Add a Code and Description and Overhead/Burden Rate if necessary.
6. Click Save.
